

Master Schedule Snapshots

The Master Schedule Snapshots screen is used to restore the master schedule and student schedules using system backups, backups created when importing sections in the Master Schedule Builder, or manually created backups. System backups are created automatically based on the [scheduled job](#) "Master Schedule Snapshots." This is set to run every hour but can be modified as needed. Backups can also be created when importing sections in the [Master Schedule Builder](#). Manual backups can be created as needed. Hourly system backups are saved for 24 hours. Daily system backups are saved for 2 weeks. Manual backups are saved for 12 months. Backups created when importing sections in the Master Schedule Builder are not removed.

 **Profile permissions** control which profiles can view and edit this screen, restore schedules, and restore schedules after the first day of school. Restoring schedules after the first day of school is not recommended.

Setting Up the Master Schedule Snapshots Scheduled Job

System backups are created automatically based on the [scheduled job](#) "Master Schedule Snapshots." This is set to run every hour but can be modified as needed.

1. In the **Setup** menu, click **Scheduled Jobs**.

2. Locate the **Master Schedule Snapshots** scheduled job in the Jobs tab and click **Edit** next to the job title.

Run Time

12 ▾ : 00 ▾ AM ▾

Scheduled Timeframe
Start Time: **End Time:**

Weekdays
☒ Monday ☒ Tuesday ☒ Wednesday ☒ Thursday ☒ Friday ☒ Saturday ☒ Sunday

Priority
If multiple jobs are scheduled to run in the same time slot, high-priority jobs will run before low-priority jobs.

Store Execution History
Keep the execution history for the selected timeframe (Default: 30).

Start Date
If set, this is the first day the cron job will run.

End Date
If set, this is the last day the cron job will run.

E-mail address
The results of the cron job will be sent to this address.

On the Master Schedule Snapshots screen, snapshots created by the scheduled job display "System" in the By field.

Creating a Manual Snapshot

Manual snapshots can be created as needed. Before making a change that could significantly affect the master schedule and student schedules, create a snapshot so that the schedules can be restored back to a previous point.

1. In the **Scheduling** menu, click **Master Schedule Snapshots**.

2. Click **Create Snapshot** at the top of the screen.

Create Snapshot
Save

No Records Found

The snapshot is created and added to the list. The user who created the snapshot, the date and time the snapshot was created, the percent of students scheduled, and the number of sections in the master schedule are displayed.
