# **Student Info: Immunizations**

The Immunizations tab housed in Student Info allows users to enter immunization records as well as immunization exemptions. Once entered, users can review the immunization compliance section, which is generated based on student records and system preferences set up to determine compliance.

- The System Preference for immunization compliance accesses student data for missing immunizations, which also generates a District Report. The Student Info screen displays Immunization Compliance for each student; if Immunization Exemptions apply, they can also be logged on the Student Info screen.
- See Florida Shots Integration for information on importing immunization records from FL Shots. Note: This integration allows the importation of Florida Shots for students with a future active enrollment record in the school district, as well as current students.

## Viewing & Entering Immunizations and Exemptions

1. In the Students menu, click Student Info.

**2.** Conduct a Student Search for the student(s) in question.

Search Screen Simple List Customized List	
Q ab More Search Options	6
Student Group	
Search All Schools	
Include Inactive Previous Years Use Most Recent Enrollment	
	Use Legacy Search Search

**3.** When the student(s) has been identified, click on the student's name to open Student Info. See <u>Searching for Students</u> fore more information.

The Immunization Compliance section houses the student's immunization compliance records as of the last runtime of the compliance rules against that student. This section displays the current compliance status for the student given the selected ruleset. The information displayed in this section pulls from the Immunizations/Medical section and the Immunization Exemption section.

The Immunization Compliance section displays the following columns: Vaccination, Compliance, Rule Description (as defined in system preferences), and the Exemption Status. Note: The Exemption Status pulls from data enter in the Immunization Exemption section.

mm	uniz	ation Compliance

The Immunization Exemption section allows you to log records to control possible exemptions. This allows you or medical staff at the district to make adjustments to the compliance protocols for a student by overriding the Immunization Compliance system. When an exemption is added for a vaccination type, the Immunization Compliance log field will display this information in the Exemption Status column.

The Immunization Exemption section displays the following columns: Immunization, Exemption, Exemption Date, and Exemption Expiration Date.

		ation Franchion
