

12.0.33 - Revision - 02/01/2024

Removed **FOCUS-41690 - Master Schedule Report: New Delete Option**

Added **FOCUS-41877 - SIS: Improve Database Triggers Performance (MSSQL)**

This update enhances the performance of specific audit triggers in the database, tailored exclusively for our self-hosted MSSQL customers. The improvement targets efficiency and stability, ensuring a smoother and more reliable experience.
